

# Hospital Record and Coding Auditor/Analyst

**Michael Alan Meyer, DO, CCS, CPG, CPCI**

**and**

**Madeline Angela Meyer, MSHA, MBA, CMPE, CCS-P, CPG, CCS**

Facility auditing is a requirement under the U.S. Federal Sentencing Guidelines. Knowing how to audit a hospital or other inpatient/outpatient facility is an important skill for medical coding, nursing, financial and other healthcare analysts, managers who perform as professional auditor/reviewers. In this course you will learn about:

Lesson 1. Compliance under the Uniform Hospital Discharge Data Set

Lesson 2. Medical Record Auditing and Abstraction

Lesson 3. The Hospital Revenue Cycle and Charge Description Master (CDM)

Lesson 4. Facility Compliance and Regulatory Guidelines

Lesson 5. The Inpatient Perspective Payment System (IPPS) and MD-DRGs, POA, HAC, CCs and NCD/LC\Ds

Lesson 6. The Outpatient Perspective Payment System (OPPS) and APCs, Status Modifiers, and NCCI.

Lesson 7. Audit Forms

Lesson 8. Statistical Analyses

Lesson 9. Quality Assurance and Risk Analysis

Lesson 10. Documenting, Presenting and Communicating Findings

CEU Assessment: Mock Exam
